

# THE PROTAGONIST

STUDENT ACADEMIC JOURNAL

***The Protagonist*** is a newly founded academic journal for students. We aim to provide students with the opportunity to share their work and to acquaint themselves with the processes of peer review, publication, editing and creating content for a scholarly publication. As an interdisciplinary journal, we are open to submissions from students of various fields, including but not limited to history, philosophy, linguistics, literary and cultural studies. We invite submissions from Charles University students as well as all others interested. English and Czech language submissions will be accepted. Czech submissions will be translated into English.

**If you are interested in getting involved at this early stage here's what you can do:**

- Become a member of the advisory board (peer reviewing papers)
- Answer our upcoming Call for Papers
- Share the news with anyone who might be interested.
